Subject: RE: Notice of Application : CU-14-00005 McDonald

All:

It is not clear if the applicant is proposing to provide his own drinking water or is connecting to an existing water system, which yields two directions:

1. If connecting to an existing system – the applicant needs to identify the existing water system, so DOH can check if the existing system has capacity to serve an additional connection.
2. If developing their own potable/drinking water system – then DOH and Kittitas County Health need to know population of the system and number of connections to determine if the system will be a Group A or Group B water system.

Please let us know, thanks,

Russell E. Mau, Ph.D., P.E.
