**Subject:** McDonsld's farm land use permit

Dear Ms. Hathaway--

In regards to McDonald's request for a land use permit for a 7 acre cannabis grow operation, I object to issuing this request as it is much larger than the allowed size for such operations. I would hate to have Ellensburg become a hub for cannabis production and allowing such a large operation puts us well on our way to infamy. No thank you. I enjoy living here because I never lock my car door, leave my front door unlocked in my house and have never had any issues. It would be awful for that to change because this business encouraged unsavory characters from coming to town.

Thank you for your consideration.  
Michele Lounsbury Griffin
