**Subject:** Objection to conditional use permit for Old McDonald's Marijuana Farm

December 17, 2014

We are writing in objection to a conditional use permit for Old McDonald's Farm. The far reaching effects of such an industry becoming common place are mind boggling. The children of our valley will be challenged daily by the message that a mind altering drug is okay if it is contained and legal. The fences, lighting and traffic on our rural roads will be devastating to the residents of rural Kittitas County. Who will pay for the additional law enforcement services this industry will require? Of course, it will be us, the citizens of Kittitas County, not the out of town investors.

Thank you for your time reading this letter. The future of our valley is at stake with this decision. Please make the right choice for everyone.

Yours Truly,

*Bruce and Terry Oergel*
