Hello Lindsey,

I know you are out today, but I wanted to make sure that I touched base with you about a couple of items. First, you had mentioned that you would be working on your staff report partly based on the submitted comments. WDFW intends to prepare responses to comments and will have those to you as soon as possible to add possible insight to the review of the project. If you require any further documentation provided to you, please do not hesitate to ask.

May 21<sup>st</sup> works well as a hearing date for WDFW and we plan on having a biologist and engineer at the hearing to answer any questions and provide comments. Please inform us of the time the hearing begins, when you have time.

Thank you for your help with this project.
