Subject: RE: Yakima River Campground CU-15-00002 Notice of Application

All:

This communication provides comment(s) from the Department of Health (DOH) Office of Drinking Water (ODW), and these comments only pertain to the drinking water system for the Campground.

If the water system to which this application is referring is:

Yakima River RV Park	Act AB0569 KITTITAS EA A TNC
-------------------------------	------------------------------

Then, this water system has 37 active connections and 37 approved connections.

If this campground wants to expand usage (by adding various facilities as described under "Project Description" found in the "Yakima River Campground General Infor and Narrative" component of the CUP application), DOH ODW requires a Capacity Analysis showing additional services/connections can be supported by the existing water system. DOH requires a Professional Engineer, licensed in the State of Washington to complete a Capacity Analysis.

Please contact me with any questions or concerns, thanks,
