Re: Iron Horse Solar Project; CU-15-00006

Dear Mr. Watson,

I find it outrageous that the County is even considering allowing the construction of a solar facility on this prime piece of agricultural property.

If Puget Power actually needs this facility it should be built on their sagebrush covered Wild Horse Wind Farm, or the County owned Ryegrass landfill, in the Wind Farm Overlay Zone.

If the solar facility were built on the County property it might benefit all taxpayers, (if these “green energy” projects are actually cost effective), instead of reducing the property values of the surrounding taxpayers.

I urge you to deny this application in its proposed location.

Sincerely,
Cindy McMeans
