RE: Project File Number: CU-1500006
Project File Name: Iron Horse

To Whom It May Concern,

I am writing in favor of the referenced proposed Iron Horse energy project. Pleased approve the project and allow its completion post-haste.
None of the arguments provided by the objector(s) in opposition to the project carries relevance, given the historical use of the parcels upon which the project will be located. The project will not negatively effect wildlife; it will not have any extraordinary noise, smell or visual impact. The project represents no elevated risk of fire nor of poor weed control, when compared to those associated with farming.
Again, please approve this project for completion and inform me via email of your decision.
Sincerely,

Brian Williams
