

KITTITAS COUNTY, WASHINGTON

IN RE: CU 15-0006

OneEnergy Iron Horse Solar Farm Appeal

**Applicant's Preliminary Witness List and Supplemental Document List;
Legal Response**

1. Witness List

Potential OneEnergy Witnesses (non-expert; company witnesses):

Travis Bryan, COO

Ann Siqveland, Director, Project Development

Taylor Steele, Associate, Project Development

Matt Durette, Manager, Project Development

These witnesses may offer testimony, as needed, regarding aspects concerning the permitting and analysis undertaken for the Iron Horse project.

Potential OneEnergy Expert Witness

Thomas Houghton, Director of Engineering and Construction (Enerparc)

Thomas Houghton is responsible for the execution of Enerparc's projects leading engineering, project management and project operations since the company's inception in 2012. Mr. Houghton started his career in solar in 2006 and is a true believer in the environmental principles upon which solar was founded which motivated him to create his own residential and commercial solar installation and engineering company, which he ran from 2006 to 2010. In 2010 he joined Trina Solar and took leadership roles in technical services, product management, project development, and strategic business development. He holds a California General Engineering Class A contractor license and a General Contractor License in Oregon. His background is in mechanical engineering studied at the University of California, Davis.

2. Additional Evidence

Updated "Glare Report," including explanation of methodology

3. Legal Briefing

Response to SEPA Appeal: Attached Applicant's Response to SEPA Appeal

CUP Briefing: Please see Applicant's Supplemental Information, Response Brief, Appn. B. OneEnergy reserves further briefing regarding the CUP for rebuttal. At this time, OneEnergy is unaware of legal issues potentially raised by appellants concerning the CUP application.
