Ellensburg

Shadow Wing Ranch hearing, Thursday, May 9th at 6 PM

To whom it may concern,

I have known Karen Jackson for many years. We have worked together successfully in several different avenues. Wherever Karen sees a need, she pursues immediate action and puts her whole heart into the plan. Karen especially has a heart for children, specifically those with special needs. She has worked successfully at Shadow Wing Ranch for several years with special needs children, watching them respond and grow, making a difference in their lives.

Karen sees a need for expansion at the Ranch, specifically a barn and arena, to allow even further success by being able to continue work with the children during the winter and to have more space for eventual riding. Expansion will enhance the experience of those children at the ranch and bring even more children, which means more needs being met.

Please carefully consider Karen's request. It will bring joy, learning, growth, and satisfaction to many families in Ellensburg!

Sincerely,

Merrily Jones
