Good afternoon Kelly,

Please see email below for CU-20-00005 comment. Public Health is still waiting for the correct water rights before approving the adequate water supply determination.

Thank you,

Subject: RE: Notice of Application - CU-20-00005 Hidden Point

Jesse,

The following are my comments for the Hidden Point project:

The applicants for this project have been working with our department on the approval process for becoming a Group B water system. Final approval hasn't been granted by the public health department as the water rights purchased for the parcels were originally purchased for residential use. The water rights needed for the project are required to be for commercial use and the applicant is in the process of making this correction and working with the Department of Ecology on the details of this change.

Prior to the construction of phase II (22 cabins, community pool and kitchen), the water system will

be required to transition to be classified as a Group A, transient non-community water system, approved by the Washington State Department of Health.

Additionally, we are withholding the approval of a water adequacy application until such time as the water right issues have been resolved.

Hope this helps.

Holly
