RE: Illegal access point onto Rein Road
Parcel 951598

Dear Mr. & Mrs. Davenport,

Kittitas County Public Works has located an illegal unpermitted second approach onto Rein Road approximately 150 feet east of your permitted access onto parcel 951598, 141 Rein Road.

Kittitas County Code 12.05.030 states: No more than one access shall be granted to an individual parcel or to continuous parcels under the same ownership unless it can be shown that:

1. Additional access would be beneficial to the public traveling the public road, or
2. Allowing one access would conflict with local safety regulations and the additional access would not be detrimental to the public health, safety, and welfare.

Removal of the illegal approach or an application for a road standards variance needs to be completed by January 20, 2023. If you choose not to apply for a variance to the road standards and do not remove the illegal approach by this date, Public Works will remove the access and bill the property owner for the cost of removal.

If you have any questions, please contact me directly at (509) 962-7673.

Sincerely,

Jackie Sharp
Access/Address Specialist
