Ms. Stevie:

The Department of Health (DOH) Office of Drinking Water (ODW) has the following comment:

- The proposed facility will be a public facility and the provided water service will be a public water system. Based on the identified population (up to 80 parishioners), the public water system appears to be a Group A water system. The applicant will need to work with DOH ODW to gain approval of the well source and water system for a Group A public water system.
- Depending on the quantity of water use, the applicant may need to “mitigate” – but that would be determined by Kittitas County Health, unless the water use exceeds an exempt well quantity, in which case, the applicant would need a water right.

Please contact DOH ODW with any questions or concerns, thanks,

**Russell E. Mau, PhD, PE**

Regional Engineer

Office of Drinking Water

Washington State Department of Health
