Mr. Cromie:

The Department of Health (DOH) Office of Drinking Water (ODW) has the following comments:

- As long as the applicant follows through on the Phase 1 plan for drinking water to disconnect from their on-site well and connect to the City's drinking water system, DOH has no concerns.
- For connection to the City's drinking water system, overall, the City's drinking water system has capacity to serve this additional connection (they are currently an "unspecified" number of approved connections), but should work with the City to ensure the drinking water system has hydraulic capacity to convey the flow demands of the applicant.

I look forward to any responses, thanks,
