

To Protect and Promote the Health and the Environment of the People of Kittitas County

September 22, 2022

Kelly Bacon, Kittitas County Planner I
Community Development Services
411 N. Ruby Street
Ellensburg, WA. 98926

Dear Kelly,

Thank you for this opportunity to provide comments. Following are the Environmental Public Health comments on the CU-22-00003, Brethren Frontier School, notice of application. The applicant must provide current, satisfactory bacteriological and nitrate test results on the water system to the Kittitas County Public Health Department.

According to the site plan provided in the application materials for the project, it appears that the current drainfield for the school is being driven over and parked on. This issue needs to be addressed as the applicants move forward with their project.

If you have any questions, please don't hesitate to give me a call.

Sincerely,

Holly Erdman, B.S.
Environmental Health Specialist II
