Happy Friday.

Thank you for explaining the LPF numbers, I am still learning daily and loving every minute of it.

Hi Deborah. Thank you for your review, we appreciate it. The LPF numbers are specifically tied final plat review (LPF = Long Plat Final) and are assigned to the final plat application/packet once it is submitted. This one was a little weird since we had the BLA associated with it.

I also appreciate your help very much sorting out the BLA, sorry for all the confusion and extra steps on this one.

Hello All,

The LPF number and bookmarked file attached to your e-mail is actually pertaining to the Boundary Line Adjustment of the Parent property prior to the creation of the new Tumble Creek Plat. I did however find a LP-18-00002 and I believe that is the correct file number for the Tumble Creek plat. AKA Suncadia Phase 3, Division 14 (Tumble Creek Plat). That being said I approve said plat for recording.

Have a great weekend.

Subject: Request for final plat review New Suncadia LPF-18-00007 Tumble Creek

Good Afternoon,

We have received a final plat submittal for the New Suncadia, Phase 3, Div 14, Tumble Creek(LPF-18-00007). This was given preliminary approval on August 21, 2018 and was processed under file number LP-18-00002. All final plat documents can be found on the t-drive: [LPF-18-00007 Tumble Creek](#), including a copy of the approval resolution 2018-132. Please let me know if there is documentation you need to review that you are unable to find.

Please have all comments back to me no later than end of day, **Tuesday, October 9**. As a reminder all final plats have to be reviewed and approved or denied by the commissioners within 30 days of submittal to the county requesting final plat review. We appreciate your quick turnaround on this.

If you have any questions, please let me know.

Jeremy Johnston, MURP
