Parcel Combination Application 2

*Reason for this application: We are fortunate to be the owners of some really good farm land. It is our desire that this land stay as farmland forever.

*In this application, we are seeking to combine 5 small parcels (parcel numbers underlined in red on Site Plan 2) into one larger parcel (560333) (underlined in blue on Site Plan 2).

*All parcels in this application are being farmed in 2 big fields.

*Our home parcel (#520333) is shown on this site plan but is not included in this application.

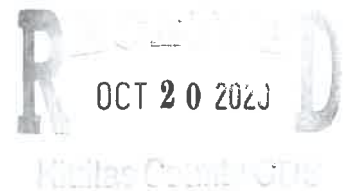

*There are pipelines and structures on this property to support surface irrigation.

*This combination will help assure that this land will continue being farmed as it has been for over many decades.

*All 2020 taxes have been paid in full. The attached tax receipt shows that taxes have been paid and also shows acreage and legal description for each parcel.
