Parcel Combination Application 1

*Reason for this application: We are fortunate to be the owners of some really good farm land. It is our desire that this land stay as farmland forever.

*In this application, we are seeking to combine 14 small parcels (parcel numbers underlined in red on Site Plan 1) into one larger parcel (underlined in blue on Site Plan 1).

*All parcels in this application are being farmed in 2 big fields and one small field.

*There is a wooden hay barn in parcel #953250.

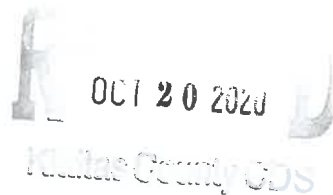

*There are two large pivot irrigation systems on the property and other pipelines and structures to support surface irrigation.

*This combination will help assure that this land will continue being farmed as it has been for over eighty years.

*All 2020 taxes have been paid in full. The attached tax receipt shows that taxes have been paid and also shows acreage and legal description for each parcel.
