By the Way...

If you have any contact with Mr. Shin we would love to talk to him regarding any additional documentation or drawings he may have regarding the history of this project... as mentioned our file is pretty sparse.

Rob,

As per our discussion today on the phone, here is what we have for that area. The Site Plan as you can see shows the restaurant at the South end of the property. What we are looking for is a site plan that depicts what is on the ground now and the proposed location of the Aardvark Café. Lot lines and subdivision are pretty much irrelevant to us; that would be something for Mr. Shin and Mr. Wood to figure out for their own preferences and protections. Once we have a site plan we would issue something akin to Debbie Randall's letter stipulating that the proposed change is not of sufficient substance to warrant a full-fledged amendment process. I'll attach what I can, but have placed everything on the web site at: <http://www.co.kittitas.wa.us/cds/current/rezones.asp> under the old file number of RZ-77-00006. Give me a call if you have any additional questions.
