Subject: Shoreline Conditional Use Application (SC-19-00002) - Request for Additional Information Updated

Dear Applicant,

Kittitas County Community Development Services (CDS) received your Shoreline Conditional Use Application (SC-19-00002) on October 22, 2019. CDS sent a "Request for Additional Information" letter on December 30, 2019 outlining a requirement for a geotechnical report to continue processing your application. Staff have reviewed your application and subsequent request for clarification. This letter is designed to clarify what will be required to continue processing your application:

1. A geotechnical report may not be required by our office if you can provide a signed letter from a qualified geotechnical engineer stating the reasons that a geotechnical report is not necessary for this project.
2. If a letter, as described in item #1 cannot be provided, a geotechnical report as described in the "Request for Additional Information" letter dated December 30, 2019, will be required to continue processing your application.

Please submit a geotechnical report or letter, as described above, to continue processing your application. CDS will continue processing your application once one of these items is received. Currently a public hearing is scheduled for your proposal on January 23, 2020 before the Kittitas County Hearings Examiner. In order to keep this hearing date, CDS will need to receive one of these items by Tuesday, January 14, 2020 at 5pm. If we do not receive one of these items, we will cancel the hearing and reschedule for a later date.

Please contact me directly at (509) 962-7065 or via email at [jeremy.johnston@co.kittitas.wa.us](mailto:jeremy.johnston@co.kittitas.wa.us) to schedule the meeting.

Thank you,

Jeremy Johnston
