DETERMINATION OF NONSIGNIFICANCE

DESCRIPTION OF PROPOSAL: Grant County PUD Temporary Water Withdrawal for Restoration Plantings

This proposal is to temporarily withdraw water from the Columbia River at various locations for the purpose of maintaining mitigation and restoration plantings, and maintaining plantings related to Grant County PUD's Wildlife Habitat Management Plan. There is a total of 25 withdrawal locations between Rock Island Dam to below Priest Rapids Dam comprising approximately 13.5 acres of land for irrigation. Watering will take place once or twice per week between April and October and will rotate among the sites. Grant PUD is requesting a temporary water right to withdraw up to 750 gallons per minute of surface water from the Columbia River using temporary submersible pumps and temporary above ground irrigation infrastructure (hoses and PVC pipe). This project will support wildlife habitat (vegetation) enhancement by providing water to newly installed vegetation at various restoration areas until it becomes established. Pumps will be screened in accordance with applicable fish screening criteria.
