CONSISTENCY ANALYSIS

A shoreline substantial development permit is not required for the project as described due to exemption WAC 173-27-040(2)(g). Although exempted by statute/rule, such exempt developments must comply with all other regulatory requirements of the Shoreline Management Act and Kittitas County Shoreline Master Program.

- The Development will comply with Washington State water laws (See Kittitas County Shoreline Master Program Section 6.19).
- Buffer strips of permanent vegetation between shoreline development and associated water bodies are encouraged, and private and public land owners shall be responsible for the preservation of vegetation to minimize erosion within the shoreline areas (See Kittitas County Shoreline Master Program Section 6.20).
- The Development will control erosion and thereby improve water quality (See Kittitas County Shoreline Master Program Section 5.2).
- Nothing in these regulations shall obviate any requirement to obtain any permit, certificate, license, or approval from any state agency or local government (See Revised Code of Washington 90.58.360).
