Jeremy,

I do not see any glaring issues.

However, I want to ensure that when they do build the fence in the next phase; they will use something with openings...not a solid fence.

Thanks!

Karen

Subject: request for floodplain review

Hello Karen,

I received two shoreline exemption applications from Grant PUD. Everything appears kosher on the land use side, but I thought I should give you an opportunity to take a look at them for floodplain review. One is for an informational Kiosk at the Ellensburg Boat Club Launch and the other is for fence posts (serving as boundary delineation signs) at the Vantage Boat Launch. I have attached both master files. My hope is to issue these early next week if you do not see any issues. Thanks.

Jeremy Johnston, MURP
