Subject: RE: Request for Comment SX-18-00016 Morris
Date: Tuesday, June 12, 2018 11:34:39 AM

Hi Jeremy,

I have reviewed the project – SX-18-00016.

The Letter of Map Amendment (LOMA) shows FEMA determined that this property is located within a C Flood Zone.

As a result, I support permitting Mr. Morris's request to build a garage out of the flood zone.

Thank you for the opportunity to review this project.

Karen

Good Morning Karen,

Attached is the Masterfile for the shoreline exemption application SX-18-00016 Morris. You may have already seen much of this information as it was sent out for review regarding a setback variance (VA-18-00001 Morris) months ago that has since been approved. The project is for a garage outside of the 115' zone along Lake Kachess. I have already done an extensive review and site visit of this project and plan to issue a decision as soon as I hear back from you (assuming you have no major issues). Let me know if you have any questions.

Jeremy Johnston, MURP
