Hi Jeremy,

Do you have a comment form you want me to fill out on this or is an email ok?

As you know the Kittitas County Flood Control Zone District fully supports this installation of a NOAA Fisheries and WDFW Compliant Fish Screen on pre-existing pump diversions, which reduce risks to aquatic life.

If you need a formal letter, that can be arranged as well.

Thank you for the opportunity to comment on this project.

Karen

Hi Karen,

This may not be necessary, as we already discussed this project, but to be sure I wanted to give you a chance to comment on the fish screen project proposed by the Conservation District as part of the Manastash Creek Restoration Project. Below is the link to the materials. I know Sherry Swanson was requesting a quick turnaround on this so I was hoping to issue once I receive your OK. Below is a link to the Master File. Thanks.
