

WASHINGTON STATE

Joint Aquatic Resources Permit Application (JARPA) Form^{1,2} [\[help\]](#)

USE BLACK OR BLUE INK TO ENTER ANSWERS IN THE WHITE SPACES BELOW.

US Army Corps of Engineers®
Seattle District

AGENCY USE ONLY

Date received: _____

Agency reference #: _____

Tax Parcel #(s): _____

Part 1–Project Identification

1. Project Name (A name for your project that you create. Examples: Smith’s Dock or Seabrook Lane Development) [\[help\]](#)

Teanaway Community Forest Grazing Improvements

Part 2–Applicant

The person and/or organization responsible for the project. [\[help\]](#)

2a. Name (Last, First, Middle)

Glass, Bridgette, Danielle

2b. Organization (If applicable)

Washington Department of Fish and Wildlife

2c. Mailing Address (Street or PO Box)

600 Capitol Way N

2d. City, State, Zip

Olympia, WA 98501-1076

2e. Phone (1)

360-790-3036

2f. Phone (2)

2g. Fax

360-902-8367

2h. E-mail

Bridgette.glass@dfw.wa.gov

¹Additional forms may be required for the following permits:

- If your project may qualify for Department of the Army authorization through a Regional General Permit (RGP), contact the U.S. Army Corps of Engineers for application information (206) 764-3495.
- Not all cities and counties accept the JARPA for their local Shoreline permits. If you need a Shoreline permit, contact the appropriate city or county government to make sure they accept the JARPA.

²To access an online JARPA form with [\[help\]](#) screens, go to

http://www.epermitting.wa.gov/site/alias_resourcecenter/jarpa_jarpa_form/9984/jarpa_form.aspx.

For other help, contact the Governor’s Office for Regulatory Innovation and Assistance at (800) 917-0043 or help@oria.wa.gov.

Part 3—Authorized Agent or Contact

Person authorized to represent the applicant about the project. (Note: Authorized agent(s) must sign 11b of this application.) [\[help\]](#)

3a. Name (Last, First, Middle)			
Glass, Bridgette, Danielle			
3b. Organization (If applicable)			
Washington Department of Fish and Wildlife			
3c. Mailing Address (Street or PO Box)			
600 Capitol Way N			
3d. City, State, Zip			
Olympia, WA 98501-1076			
3e. Phone (1)	3f. Phone (2)	3g. Fax	3h. E-mail
306-790-3036		360-902-8367	Bridgette.glass@dfw.wa.gov

Part 4—Property Owner(s)

Contact information for people or organizations owning the property(ies) where the project will occur. Consider both **upland and aquatic** ownership because the upland owners may not own the adjacent aquatic land. [\[help\]](#)

- Same as applicant. (Skip to Part 5.)
- Repair or maintenance activities on existing rights-of-way or easements. (Skip to Part 5.)
- There are multiple upland property owners. Complete the section below and fill out [JARPA Attachment A](#) for each additional property owner.
- Your project is on Department of Natural Resources (DNR)-managed aquatic lands. If you don't know, contact the DNR at (360) 902-1100 to determine aquatic land ownership. If yes, complete [JARPA Attachment E](#) to apply for the Aquatic Use Authorization.

4a. Name (Last, First, Middle)			
Smith, Joe			
4b. Organization (If applicable)			
Department of Natural Resources C/O Conserv Rec & Transaction Div			
4c. Mailing Address (Street or PO Box)			
PO BOX 47014			
4d. City, State, Zip			
Olympia, WA 98504-7014			
4e. Phone (1)	4f. Phone (2)	4g. Fax	4h. E-mail
509-925-0950			

Part 5—Project Location(s)

Identifying information about the property or properties where the project will occur. [\[help\]](#)

- There are multiple project locations (e.g. linear projects). Complete the section below and use [JARPA Attachment B](#) for each additional project location.

5a. Indicate the type of ownership of the property. (Check all that apply.) [help]			
<input type="checkbox"/> Private			
<input checked="" type="checkbox"/> Federal			
<input checked="" type="checkbox"/> Publicly owned (state, county, city, special districts like schools, ports, etc.)			
<input type="checkbox"/> Tribal			
<input type="checkbox"/> Department of Natural Resources (DNR) – managed aquatic lands (Complete JARPA Attachment E)			
5b. Street Address (Cannot be a PO Box. If there is no address, provide other location information in 5p.) [help]			
WFT			
5c. City, State, Zip (If the project is not in a city or town, provide the name of the nearest city or town.) [help]			
Cle Elum, WA, 98922			
5d. County [help]			
Kittitas			
5e. Provide the section, township, and range for the project location. [help]			
¼ Section	Section	Township	Range
	36	21 N	15 E
5f. Provide the latitude and longitude of the project location. [help]			
<ul style="list-style-type: none"> Example: 47.03922 N lat. / -122.89142 W long. (Use decimal degrees - NAD 83) 			
47.262634 N lat. / -120.913036			
5g. List the tax parcel number(s) for the project location. [help]			
<ul style="list-style-type: none"> The local county assessor's office can provide this information. 			
037-717535			
5h. Contact information for all adjoining property owners. (If you need more space, use JARPA Attachment C.) [help]			
Name	Mailing Address	Tax Parcel # (if known)	
Lena Fudacz (Trustee)	211 Garden Street	707535	
	Cle Elum, WA

5i. List all wetlands on or adjacent to the project location. [\[help\]](#)

The fence is being placed around the wetland to prevent cattle from using it as a water source and causing further disturbance.

5j. List all waterbodies (other than wetlands) on or adjacent to the project location. [\[help\]](#)

West Fork Teanaway

5k. Is any part of the project area within a 100-year floodplain? [\[help\]](#)

Yes No Don't know

5l. Briefly describe the vegetation and habitat conditions on the property. [\[help\]](#)

The habitat includes grassland with scattered conifers.

5m. Describe how the property is currently used. [\[help\]](#)

This property is within the Teanaway Community Forest. The Teanaway Community Forest is a combination of both DNR and WDFW lands that are managed in unison with the local community for timber, cattle grazing, and fish habitat enhancement.

5n. Describe how the adjacent properties are currently used. [\[help\]](#)

The adjacent properties are used for cattle grazing under the Teanaway Community Forest Management Plan, and some single-family residences with acreage.

5o. Describe the structures (above and below ground) on the property, including their purpose(s) and current condition. [\[help\]](#)

There is an existing fence south of the road that we will be connecting to with additional exclusion fence.

5p. Provide driving directions from the closest highway to the project location, and attach a map. [\[help\]](#)

From Cle Elum head east on W 1st street toward N. Oakes Ave. Continue onto WA-903 spur and onto WA 10E. Continue to follow WA 970 E. After about 6 miles, turn left onto Teanaway Road. After 7 miles, the road will fork into Teanaway Road North Fork. Many of the sites for this project are accessible from dirt roads that connect to this fork.

Part 6–Project Description

6a. Briefly summarize the overall project. You can provide more detail in 6b. [\[help\]](#)

There are 13 sites for this project and the actions at these sites can include fence installation, cattle crossing installation, and/or woody debris bank stabilization. Of those 13 sites, fencing will be installed at 11 sites. A total of 3.2 miles of fence will be installed or repaired to protect wetlands and exclude cattle from areas of the stream they access for water or for crossing purposes. Exclusion fences will be installed and will remain fixed in place while some fences will be installed as drop fences that can be laid down after cattle season is over to prevent injury to wildlife when snow covers the fences. Of those 13 sites, cattle crossings will be installed at six sites on four streams/rivers within the Teanaway Community Forest to harden areas in the stream where cattle cross or use as a drinking source. Across all those six sites, below ordinary high water approximately 73 CY of native streambed will be removed and 73 CY of quarry spalls will be added as fill. Above the ordinary high water mark, a total of 139 CY of native streambed will be removed and a total of 59 CY of quarry spalls will be added resulting in a net of 80 CY of cut across those six sites. Only one site will have woody material used for bank stabilization (Storey (19)).

6b. Describe the purpose of the project and why you want or need to perform it. [\[help\]](#)

The purpose of this project is to restore fish and wildlife habitat resources in the Teanaway Community Forest while maintaining it as working forest land. These lands are used for cattle grazing and the grazing infrastructure described in 6a. will keep cattle from entering and disturbing critical aquatic and riparian resources.

6c. Indicate the project category. (Check all that apply) [\[help\]](#)

- Commercial
 Residential
 Institutional
 Transportation
 Recreational
 Maintenance
 Environmental Enhancement

6d. Indicate the major elements of your project. (Check all that apply) [\[help\]](#)

- | | | | |
|--|---|--|--|
| <input type="checkbox"/> Aquaculture | <input type="checkbox"/> Culvert | <input type="checkbox"/> Float | <input type="checkbox"/> Retaining Wall (upland) |

Other: Cattle/Hardened Crossing

6e. Describe how you plan to construct each project element checked in 6d. Include specific construction methods and equipment to be used. [\[help\]](#)

- Identify where each element will occur in relation to the nearest waterbody.
- Indicate which activities are within the 100-year floodplain.

The bank stabilization will occur at Storey (19) site by installing approximately 750 cubic feet of logs and woody materials. This site is outside of the floodplain. Fencing will be installed at Casland (11), WFT (22), Storey (19), Dickey (1), Shirk (18), Indian (6), No-name (14), Jack (7), Floodplain, Little Jungle (10), and Jungle (8). Floodplain site is within the 100-year floodplain and in shoreline jurisdiction. Cattle crossings will be installed at Dickey (1), Indian (3), Indian (5), Indian (6), No-name (14) and Jack (7). None of the sites where cattle crossings are going will be within the 100-year floodplain. This work will involve the use of a bobcat or similar piece of equipment with an auger attachment, an excavator and a dump truck. The bobcat will be used to transport materials and to create some holes for the fence posts. The excavator will be used to remove the native streambed material at each water crossing and the place in the quarry spalls. The dumptruck will be used to haul off materials from each site and to take them for proper disposal.

6f. What are the anticipated start and end dates for project construction? (Month/Year) [\[help\]](#)

- If the project will be constructed in phases or stages, use [JARPA Attachment D](#) to list the start and end dates of each phase or stage.

Start Date: 08/03/2020 End Date: 10/30/2020 See JARPA Attachment D

6g. Fair market value of the project, including materials, labor, machine rentals, etc. [\[help\]](#)

\$340,000

6h. Will any portion of the project receive federal funding? [\[help\]](#)

- If **yes**, list each agency providing funds.

Yes No Don't know

Part 7–Wetlands: Impacts and Mitigation

- Check here if there are wetlands or wetland buffers on or adjacent to the project area.
(If there are none, skip to Part 8.) [\[help\]](#)

7a. Describe how the project has been designed to avoid and minimize adverse impacts to wetlands. [\[help\]](#)

Not applicable

This project was designed to protect wetlands from the impacts of heavy cattle usage. Two of the sites for this project, WFT (22) and Indian (6), are to install fences around wetlands to prevent them from being used by cattle.

7b. Will the project impact wetlands? [\[help\]](#)

Yes No Don't know

7c. Will the project impact wetland buffers? [\[help\]](#)

Yes No Don't know

7d. Has a wetland delineation report been prepared? [\[help\]](#)

- If Yes, submit the report, including data sheets, with the JARPA package.

Yes No

7e. Have the wetlands been rated using the Western Washington or Eastern Washington Wetland Rating System? [\[help\]](#)

- If Yes, submit the wetland rating forms and figures with the JARPA package.

Yes No Don't know

7f. Have you prepared a mitigation plan to compensate for any adverse impacts to wetlands? [\[help\]](#)

- If Yes, submit the plan with the JARPA package and answer 7g.
- If No, or Not applicable, explain below why a mitigation plan should not be required.

Yes No Don't know

This project will protect wetlands from the effects of heavy usage by cattle through installation of a perimeter fence around the wetlands at sites WFT (22) and Indian (6).

7g. Summarize what the mitigation plan is meant to accomplish, and describe how a watershed approach was used to design the plan. [\[help\]](#)

7h. Use the table below to list the type and rating of each wetland impacted, the extent and duration of the impact, and the type and amount of mitigation proposed. Or if you are submitting a mitigation plan with a similar table, you can state (below) where we can find this information in the plan. [\[help\]](#)

Activity (fill, drain, excavate, flood, etc.)	Wetland Name ¹	Wetland type and rating category ²	Impact area (sq. ft. or Acres)	Duration of impact ³	Proposed mitigation type ⁴	Wetland mitigation area (sq. ft. or acres)

¹ If no official name for the wetland exists, create a unique name (such as "Wetland 1"). The name should be consistent with other project documents, such as a wetland delineation report.

² Ecology wetland category based on current Western Washington or Eastern Washington Wetland Rating System. Provide the wetland rating forms with the JARPA package.

³ Indicate the days, months or years the wetland will be measurably impacted by the activity. Enter "permanent" if applicable.

⁴ Creation (C), Re-establishment/Rehabilitation (R), Enhancement (E), Preservation (P), Mitigation Bank/In-lieu fee (B)

Page number(s) for similar information in the mitigation plan, if available: _____

7i. For all filling activities identified in 7h, describe the source and nature of the fill material, the amount in cubic yards that will be used, and how and where it will be placed into the wetland. [\[help\]](#)

N/A

7j. For all excavating activities identified in 7h, describe the excavation method, type and amount of material in cubic yards you will remove, and where the material will be disposed. [\[help\]](#)

N/A

Part 8—Waterbodies (other than wetlands): Impacts and Mitigation

In Part 8, “waterbodies” refers to non-wetland waterbodies. (See Part 7 for information related to wetlands.) [\[help\]](#)

Check here if there are waterbodies on or adjacent to the project area. (If there are none, skip to Part 9.)

8a. Describe how the project is designed to avoid and minimize adverse impacts to the aquatic environment. [\[help\]](#)

Not applicable

This project will restore and protect the riparian and stream habitat. Cattle crossings are being installed in areas that cattle are already used and have degraded, or in areas where it would be better for them to use because it would have less impact on the aquatic environment. These hardened crossings will have stable slopes that reduce erosion and large sediment releases that decrease quality of the habitat for salmon.

8b. Will your project impact a waterbody or the area around a waterbody? [\[help\]](#)

Yes No

8c. Have you prepared a mitigation plan to compensate for the project's adverse impacts to non-wetland waterbodies? [\[help\]](#)

- If Yes, submit the plan with the JARPA package and answer 8d.
- If No, or Not applicable, explain below why a mitigation plan should not be required.

Yes No Don't know

A mitigation plan is not applicable for this project because the project will restore and improve stream quality by designating places for cattle to cross or drink from the stream in areas that will not erode. This area provides habitat for salmon and will hopefully one day provide habitat for the currently extirpated bull trout. These improvements to the grazing infrastructure in the Teanaway will protect the water quality of these streams.

8d. Summarize what the mitigation plan is meant to accomplish. Describe how a watershed approach was used to design the plan.

- If you already completed 7g you do not need to restate your answer here. [\[help\]](#)

8e. Summarize impact(s) to each waterbody in the table below. [\[help\]](#)

Activity (clear, dredge, fill, pile drive, etc.)	Waterbody name ¹	Impact location ²	Duration of impact ³	Amount of material (cubic yards) to be placed in or removed from waterbody	Area (sq. ft. or linear ft.) of waterbody directly affected
Dredge	Dickey Creek	Below Ordinary High Water Mark (OHWM)	Permanent	6 CY of native streambed	150 sq. ft.
Fill	Dickey Creek	Below OHWM	Permanent	6 CY (half quarry spalls and half streambed sediment)	150 sq. ft.
Dredge	Dickey Creek	Above OHWM	Permanent	2 CY of native streambank	50 sq. ft.
Fill	Dickey Creek	Above OHWM	Permanent	2 CY of quarry spalls	50 sq. ft.
Dredge	Indian Creek	Below OHWM	Permanent	43 CY of native streambed	1,159 sq. ft.
Fill	Indian Creek	Below OHWM	Permanent	43 CY (half quarry spalls and half streambed sediment)	1,159 sq. ft.
Dredge	Indian Creek	Above OHWM	Permanent	100 CY of native streambank	1,306 sq. ft.
Fill	Indian Creek	Above OHWM	Permanent	20 CY of quarry spalls	538 sq. ft.
Dredge	No-name Creek	Below OHWM	Permanent	16 CY of native streambed	433 sq. ft.

Fill	No-name Creek	Below OHWM	Permanent	16 CY (half quarry spalls and half streambed sediment)	433 sq. ft.
Dredge	No-name Creek	Above OHWM	Permanent	32 CY of native streambank/upland	867 sq. ft.
Fill	No-name Creek	Above OHWM	Permanent	32 CY of quarry spalls	867 sq. ft.
Dredge	Jack Creek	Below OHWM	Permanent	8 CY of native streambed	215 sq. ft.
Fill	Jack Creek	Below OHWM	Permanent	8 CY of (half quarry spalls and half streambed sediment)	215 sq. ft.
Dredge	Jack Creek	Above OHWM	Permanent	5 CY of native streambank	135 sq. ft.
Fill	Jack Creek	Above OHWM	Permanent	5 CY of quarry spalls	135 sq. ft.

¹ If no official name for the waterbody exists, create a unique name (such as "Stream 1") The name should be consistent with other documents provided.

² Indicate whether the impact will occur in or adjacent to the waterbody. If adjacent, provide the distance between the impact and the waterbody and indicate whether the impact will occur within the 100-year flood plain.

³ Indicate the days, months or years the waterbody will be measurably impacted by the work. Enter "permanent" if applicable.

8f. For all activities identified in 8e, describe the source and nature of the fill material, amount (in cubic yards) you will use, and how and where it will be placed into the waterbody. [\[help\]](#)

Imported streambed sediment (WSDOT 9-13.1 (1)) will be placed on top the quarry spalls (WSDOT 9-13.1 (5)) which will both be sourced locally. The quarry spalls will provide a harder substrate for the cattle to walk across without damaging the water quality or habitat of the stream. Approximately 6 inches of streambed sediment will be placed on top of 6 inches of quarry spalls in the streambed/below OHWM of the creeks specified previously. Additional quarry spalls will be used to protect the banks from erosion as cattle travel down those slopes to cross the water and these will be placed above the OHWM of those creeks. A total of 36.5 CY of quarry spalls will be added as fill material below OHWM and a total of 59 CY of quarry spalls will be added above the OHWM. A total of 36.5 CY of streambed material will be added as fill below OHWM.

8g. For all excavating or dredging activities identified in 8e, describe the method for excavating or dredging, type and amount of material you will remove, and where the material will be disposed. [\[help\]](#)

Native streambed sediment will be dredged using an excavator. At each site approximately 1 ft of depth of streambed sediment will be removed below the OHWM of the creeks listed above. Some of this streambed sediment will be replaced in the streambed to cover the quarry spalls. The streambed sediment that is not used will be taken off site to be disposed of properly at a local business that accepts streambed sediment. A total of 73 CY of stream bed material will be removed. A total of 139 CY of streambank material (above OHWM) will be removed.

Part 9—Additional Information

Any additional information you can provide helps the reviewer(s) understand your project. Complete as much of this section as you can. It is ok if you cannot answer a question.

9a. If you have already worked with any government agencies on this project, list them below. [\[help\]](#)

Agency Name	Contact Name	Phone	Most Recent Date of Contact
-------------	--------------	-------	-----------------------------

USACE	David Moore	509-316-3166	4/16/2020

9i. Does the project site have known contaminated sediment? [\[help\]](#)

- **If Yes**, please describe below.

Yes No

9j. If you know what the property was used for in the past, describe below. [\[help\]](#)

These properties have been used in the past for cattle grazing, only they are now under the management of the Teanaway Community Forest Management Plan.

9k. Has a cultural resource (archaeological) survey been performed on the project area? [\[help\]](#)

- **If Yes**, attach it to your JARPA package.

Yes-will be provided when survey report is finalized. No

9l. Name each species listed under the federal Endangered Species Act that occurs in the vicinity of the project area or might be affected by the proposed work. [\[help\]](#)

The gray wolf (Endangered), Canada lynx (Threatened), North American wolverine (proposed Threatened), Grizzly bear (Threatened), Marbled Murrelet (Threatened), Spotted Owl (Threatened), Yellow-billed Cuckoo (Threatened), and the bull trout (Threatened) were identified in the Information for Planning and Consultation through the USFWS as having the potential to occur in the vicinity of the project area. The project area includes critical habitat for the bull trout.

9m. Name each species or habitat on the Washington Department of Fish and Wildlife's Priority Habitats and Species List that might be affected by the proposed work. [\[help\]](#)

Casland- Northern Spotted Owl (Management Buffer), Riverine (Aquatic Habitat), Elk (Breeding Area)

WFT- None

Storey- Rainbow trout (Occurrence/Migration), Northern Spotted Owl (Management Area), Elk (Breeding Area)

Dickey- Summer Steelhead (Occurrence/Migration), Northern Spotted Owl (Management Area), Elk (Breeding)

Shirk (18)- Northern Spotted Owl (Management Area), Elk (Breeding)

Indian (3)- Rainbow trout (Occurrence/Migration), Summer Steelhead (Occurrence/Migration), Spring Chinook, Dolly varden/Bull Trout (Occurrence/Migration), Steelhead (Occurrence), Elk (Breeding), Northern Spotted Owl (Management Buffer)

Indian (5)- Spring Chinook, Dolly Varden/Bull Trout (Occurrence/Migration), Steelhead (Occurrence), Coho, Rainbow trout (Occurrence/Migration), Summer Steelhead (Occurrence/Migration), Northern Spotted Owl (Management Buffer).

Indian (6)- Westslope Cutthroat (Occurrence/Migration), Northern Spotted Owl (Management Buffer), Freshwater Forested/shrub wetland (aquatic habitat)

No-name- Elk (Breeding), Northern Spotted Owl (Management Buffer)

Jack- Summer steelhead (Occurrence/Migration), Westslope Cutthroat (Occurrence/Migration), Spring Chinook, Coho, Steelhead (Occurrence), Dolly Varden/Bull Trout (Occurrence/Migration), Rainbow Trout (Occurrence/Migration)

Floodplain- Northern Spotted Owl (Management Buffer), Elk (Breeding Area)

Little Jungle- Northern Spotted Owl (Management Buffer), Elk (Breeding Area)

Jungle- Eastern Brook Trout, Summer Steelhead (Occurrence/Migration), Westslope Cutthroat (Occurrence/Migration), Dolly Varden/Bull Trout (Occurrence/Migration), Rainbow Trout (Occurrence/Migration), Northern Spotted Owl (Management Buffer)

Part 10–SEPA Compliance and Permits

Use the resources and checklist below to identify the permits you are applying for.

- Online Project Questionnaire at <http://apps.oria.wa.gov/opas/>.
- Governor's Office for Regulatory Innovation and Assistance at (800) 917-0043 or help@oria.wa.gov.
- For a list of addresses to send your JARPA to, click on [agency addresses for completed JARPA](#).

10a. Compliance with the State Environmental Policy Act (SEPA). (Check all that apply.) [\[help\]](#)

- For more information about SEPA, go to <https://ecology.wa.gov/regulations-permits/SEPA-environmental-review>.

A copy of the SEPA determination or letter of exemption is included with this application.

A SEPA determination is pending with WDFW (lead agency). The expected decision date is 6/16/2020.

I am applying for a Fish Habitat Enhancement Exemption. (Check the box below in 10b.) [\[help\]](#)

This project is exempt (choose type of exemption below).

Categorical Exemption. Under what section of the SEPA administrative code (WAC) is it exempt?

Other: _____

SEPA is pre-empted by federal law.

10b. Indicate the permits you are applying for. (Check all that apply.) [\[help\]](#)

LOCAL GOVERNMENT

Local Government Shoreline permits:

Substantial Development Conditional Use Variance

Shoreline Exemption Type (explain): WAC 173-27-040 (2)(p)

Other City/County permits:

Floodplain Development Permit Critical Areas Ordinance

STATE GOVERNMENT

Washington Department of Fish and Wildlife:

Hydraulic Project Approval (HPA) Fish Habitat Enhancement Exemption – [Attach Exemption Form](#)

Washington Department of Natural Resources:

Aquatic Use Authorization

Complete [JARPA Attachment E](#) and submit a check for \$25 payable to the Washington Department of Natural Resources.

Do not send cash.

Washington Department of Ecology:

Section 401 Water Quality Certification

FEDERAL AND TRIBAL GOVERNMENT

United States Department of the Army (U.S. Army Corps of Engineers):

Section 404 (discharges into waters of the U.S.) Section 10 (work in navigable waters)

United States Coast Guard:

General Bridge Act Permit Private Aids to Navigation (for non-bridge projects)

United States Environmental Protection Agency:

Section 401 Water Quality Certification (discharges into waters of the U.S.) on tribal lands where tribes do not have treatment as a state (TAS)

Tribal Permits: (Check with the tribe to see if there are other tribal permits, e.g., Tribal Environmental Protection Act, Shoreline Permits, Hydraulic Project Permits, or other in addition to CWA Section 401 WQC)

Section 401 Water Quality Certification (discharges into waters of the U.S.) where the tribe has treatment as a state (TAS).

Part 11—Authorizing Signatures

Signatures are required before submitting the JARPA package. The JARPA package includes the JARPA form, project plans, photos, etc. [\[help\]](#)

11a. Applicant Signature (required) [\[help\]](#)

I certify that to the best of my knowledge and belief, the information provided in this application is true, complete, and accurate. I also certify that I have the authority to carry out the proposed activities, and I agree to start work only after I have received all necessary permits.

I hereby authorize the agent named in Part 3 of this application to act on my behalf in matters related to this application. BG (initial)

By initialing here, I state that I have the authority to grant access to the property. I also give my consent to the permitting agencies entering the property where the project is located to inspect the project site or any work related to the project. BG (initial)
