Hi Daron,

The distance from the existing structure to the ordinary high-water mark is 73 feet. For what it's worth, FEMA's mean ordinary high-water mark to the existing structure is 110 feet. If you need anything else, please let me know.

Thanks,

Sam Ward

Good afternoon!

I am hoping to get the distance from the project to the OHWM. I apologize if this has already been provided and I've missed it.

Thank you!
