If the Scenic Byways money is no longer used NEPA documentation is no longer needed. I withdrew the US Army Corps of Engineers permit application for the HVAC coils in the pond, therefore, no NEPA action is needed. NEPA was not referenced in the SEPA documentation. Therefore, if NEPA is not needed a SEPA determination may be issued. We are awaiting the determination of the Section 106 for the National Archaeological and Historic Preservation Act review.

Please see below.

I cc'd others to give them the opportunity to comment or clarify.

Hey Doug,

106 is complete ( see attached).

If the project is not going to proceed using FHWA funding I see no benefit in further work on the FHWA NEPA process. FHWA will not sign off on NEPA for a project they are not funding.

Also, the NEPA process is handled somewhat differently by different federal agencies so spending time on additional subject matter reports most likely wouldn't advance the projects timeline.

Roger

Hey Doug,  
SHPO has approved the report.  
Roger
