Chelsea Benner,

I am the airspace manager for the Yakima Training Center.

I have reviewed the Vantage Shoreline Substantial Development Project (SD-18-00002) and have a comment I would like considered by Kittitas County Community Development Services prior to granting the permit:

The Vantage Shoreline Substantial Development Project is one and a half miles from the boundary of the Yakima Training Center. The military mission on the Yakima Training Center requires a dark sky at night. The light pollution from a large project so close to the installation could encroach on the mission of the military. We request assurances from the applicant that the project will conform to the International Dark-Sky Association and Illuminating Engineering Society of North America recommendations for well-shielded outdoor lighting fixtures and no uplight for area and street lighting.

Thank you, Bob Bright

ROBERT D. BRIGHT
