---

Hi, Kelly.

Left a VM for you just now. On behalf of the Applicant, we're still hoping for input from you on the conservation easement item under the above-noted SP Application. We intend to address the option of using such easements in our response letter to agency comments, which we intend to deliver to you later this afternoon – unless you and I agree to a modest additional time extension.

The issue boils down to this: if we elect to impose easements on two of the four Lots, what specifically would need to be done in the future to un-do them and to permit development of those Lots, including potable water supply?

Thanks! Hope to confer with you again today.

Best,

Paul

Paul C. Dempsey, Attorney
