Hello Chace Pedersen,

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program. This consultation is in reference to Plat Project *SP-22-00007 Davis*. No ground disturbing activities will be conducted according to the project narrative. The area is within the Moses-Columbia Traditional Territories and is near known cultural resources. CCT recommends that the Project continue with an IDP in place.

The proposed project lies within the traditional territory of the Moses-Columbia Tribe, 1 of the 12 constituent tribes of the Confederated Tribes of the Colville Reservation (CTCR), which is governed by the Colville Business Council (CBC). The CBC has delegated to the Tribal Historic Preservation Officer (THPO) the responsibility of representing the CTCR with regard to cultural resources management issues throughout the traditional territories of all of the constituent tribes under Resolution 1996-29. This area includes parts of eastern Washington, northeastern Oregon, the Palus territory in Idaho, and south-central British Columbia.

There are known cultural resources nearby and the division of this particular plat is considered Very High Risk for an inadvertent discovery according to the DAHP predictive model. CCT H/A recommends during implementation that there be an Inadvertent Discovery Plan or (IDP) in place to ensure compliance with all Section 106 and relevant cultural resource laws both federally and to the state of Washington.

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program.

Sincerely,

Connor Armi | [Archaeologist Senior MA, RPA](#)
