Hello Zach,

This consult is in reference to *SP-24-00002 Carr*. This undertaking involves no ground disturbance at this time. However, this proposal is in preparation for future development.

This undertaking is located outside the CCT Traditional Territories. We request any undertakings, particularly those involving ground disturbing activities, to have an IDP in place prior to implementation.

There are known cultural resources of precontact and historic significance nearby and this particular plat is considered Low to Moderate Risk for an inadvertent discovery according to the DAHP predictive model. This parcel has not been previously surveyed and a preliminary archaeological investigation would be prudent.

CCT requests a cultural resource survey. Doing cultural resource surveys prior to planned development saves the proponent time in not having to redraw those plans in the case of an Inadvertent Discovery. The CCT further requests that during implementation there be an inadvertent discovery plan or (IDP) in place to ensure compliance with all Section 106 and relevant cultural resource laws both federally and to the state of Washington.

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program.

On behalf of Guy Moura, Tribal Historic Preservation Officer.

Sincerely,

Connor Armi | Archaeologist Senior MA, RPA
