RE: SP-24-00002 Carr – Notice of Application

Dear Zach,

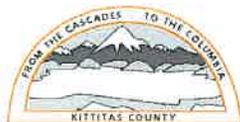

The following comments are the Environmental Public Health comments on the SP-24-00002 - Carr Notice of Application. The applicant proposes that the well on lot 1 will serve both lots 1 and 2. A signed and recorded shared well agreement between the two lots along with the well log for the existing well on lot 1 must be submitted to the health department for review. A soil log must be performed by the Kittitas County Public Health Department on lot 2. Both of these requirements must be met before final plat signature can be obtained.

Thank you for this opportunity to comment. If you have any questions, please don't hesitate to give me a call.

Sincerely,

A handwritten signature in black ink that reads "Holly Erdman".
