Subject: RE: Down Shortplat

It is not in Kittitas county code it is in WAC 246-272A

(c) Where preliminary approval of a subdivision is requested, provision of at least one soil log per proposed lot, unless the local health officer determines existing soils information allows fewer soil logs;

Subject: Down Shortplat

Hi Joe,

Mrs. Downs emailed me this morning wanting to know the status of her short plat and if there were any more comments. I have let her surveyor know that she will need to do soil logs prior to our issuance of a conditional preliminary approval letter. In order for me to send her the letter to request additional info I need a comment from your department since this is a policy and not a code I can quote. Please let me know if you need any info from me prior to you issuing this comment.

Thanks,

Lindsey Ozbolt
