Ms. Hathaway:

I can understand rationale for “exemptions”; however, for a “subdivision” or other properties that may lead to construction of facilities that may/would require water/sewer, DOH does need to know if the property owner/representative is proposing a private well or connection to an existing or a proposed water system – so we can either make sure the proper agency provides follow through:

- Private well – Kittitas County Health
- Existing water system connection – DOH
- Proposed water system connection – Kittitas County Health or DOH depending on number of total connections

In this case, this subdivision, based on your input, will be served water by:

SNOQUALMIE PASS UTILITY DISTRICT	Act	81048F	KING	NW	A	Comm
----------------------------------	-----	--------	------	----	---	------

A review of their records show that they are approved for 1053 connections and currently serve 760 connections, so they definitely have capacity to serve additional connections.

However, please note as a counter example, if the Snoqualmie Pass Utility District already was serving their approved connections, then DOH would have to respond that the subdivision canNOT be served by the water system, so the developer owner/representative would need to seek some other approach to provide drinking water.

Thanks,

Russell E. Mau, Ph.D., P.E.

Dr. Mau,

This project is only for a 2 lot subdivision, the original subdivision consisted of 3 lots. This subdivision will be serviced by Snoqualime Pass PUD. As for SEPA Exempt please refer to WAS 197-11-800(6)(a).

If you have any further questions please feel free to contact me.

Ms. Hathaway:

Any reason why no SEPA – what is the future direction for water/sewer for the three parcels?

Thanks,

Russell E. Mau, Ph.D., P.E.
