This letter is regarding the additional traffic generated by the project. It has no relation to the private road construction requirements and does not address the issues related to the bridge. You must still address the bridge. The road variance application is attached.

Subject: FW:

Hi Christina, I received this letter from the DEPT. OF PUBLIC WORKS yesterday 11/10/2015 regarding the bridge on filbert Rd. It is dated 10/13/2015, it must have been delivered to the wrong address and I am just getting it now. So by what this letter states, we are Ok on the bridge on filbert RD. If not could you please advise me on our next step. If we are ok then will this letter reopen our subdivision process. If variances are required who do I contact for this.

Thank you
Harlan Odegard.
