**Subject:** Grow Brothers MJ Processing

Dear Commissioners,

What have you done??? The application for a license for the Grow Brothers MJ location is sadly remiss in so many details that would impact the safety of our citizens, as well as the skirting of the correct address for the facility! Why has this operation been allowed to change the address for a measly \$75???

PLEASE start to take responsibility for the process and administration of these applications for growing/**Processing cannabis** in our neighborhoods!
