Hi Lindsey, my name is Holley Smith, I am Jack Blanchards son in law. Jack has asked me to contact you about the proposed "Christine Baker" bridge. Jack wanted to know if the construction was approved based on information provided or you had visited the site. Jack after reading noted several discrepancies in the information provided. He advises that there is no easement to access construction activities, the stream does not pass through the Baker property, the drawing depicting the proposed location does not match IE: the bridge is shown crossing the corner of Jacks property, there was no forest service bridge that location. These are just the concerns noted after casual review of the documents. Please advise.

Thankyou

Holley Smith/Jack Blanchard
