Subject: SE-20-00003

Dear Ms. Bacon,

My husband David and I live at 1103 Tahoma Farm Rd., and we also own the home at 1101 Tahoma Farm Rd. The sewage ponds proposed under project SE-20-0003 will directly affect the value of our estate, hay acreage, and pollute our water. We strongly oppose this project moving forward and suggest the contractors find another way to deal with the human sewage that will not affect Park Creek's water, the value of surrounding estates, and hay and alfalfa fields.

Please let me know by phone or email today if email meets requirements for opposition letter as I do not want to go to your office Monday due to the pandemic.

Sincerely,

Jennifer (and David) Martin
