Hello. We are writing in relation to the proposed Brown and Jackson proposal to constructing two storage ponds tax parcel 295134 east of Kittitas. We are against this proposed construction and request to be informed of any procedural progress. This proposed storage pond development will have significant impact in our rural community. We are residents in this target area and wish our voices to heard. We are not against a storage pond however we believe there is adequate space in this county east of this proposed site that would be more appropriate.

Please consider this request to contest this development

Sincerely

Verne and Mary Rainey
