Date: Thursday, July 16, 2020 3:43:20 PM

Good Afternoon,

The grading permit is reviewed and ready to issue. I will wait to issue the permit until the sepa decision is issued.

Thank you,

Zachery Peebles

Subject: RE: 4G Farms Grading Permit

If this is for the septage ponds off of Parke Creek, currently there is not another land use permit, however Kelly is correct that SEPA and the grading permit need to run concurrently and the sepa decision needs to be issued prior to or on the same day as the grading permit. It is also my understanding that there will be either WA Public Health/DOE and/or County Public Health permitting as well. I am not aware of any building permits necessary at this time.

Best,

Lindsey Ozbolt

That is correct, they are a permitted use under Utilities. No Conditional Use Permit required. I've cc'd Lindsey, in case I have missed anything from our previous conversations.

Mark sent me out to look at the new bridge that replaced a smaller wooden bridge. The applicant said he worked with WDFW for the bridge replacement, but was unaware they would need a permit from Public Works also.

Mark was under the impression they would be doing a commercial use application through CDS. The applicant said they worked with you and the ponds are allowed in the current zoning, correct?

Great, thank you.

The grading permit and SEPA need to run consecutively due to SEPA being triggered due to the grading permit. If you could keep me in the loop with where you are at with the grading permit, that would be great!

Subject: 4G Farms Grading Permit

Good Morning!

I came back to work with a mountain of new problems on my desk. Under that mountain was a grading permit I believe you were looking for? Gail said you needed the 4G Farms/Brown and Jackson plans for SEPA. They are too big to send at once so I will shoot you another email with the rest.

Thank you,

Zachery Peebles
