Waterbodies (other than wetlands): Impacts and Mitigation

"waterbodies" refers to non-wetland waterbodies.

Describe how the project is designed to avoid and minimize adverse impacts to the aquatic environment.

Not applicable

Excavator contractor will do minimal disturbance to stream crossing reducing sediment, project completed in one day and waterflow returned same day.

Will your project impact a waterbody or the area around a waterbody?

Describe how your project will impact a waterbody or the area around a waterbody.

Depending on water flow from irrigation possible need to dam north of trench for less than 1 day. excavate 36inch wide by 5 ft deep trench to bury water and power line.

Describe impact(s) that cannot be avoided through project design and implementation. For each location, please include the following:

• General location description where the impact(s) will occur(e.g. stream bank, beach front, 2-foot strip from bank, portion of gravel bar, etc.)
• Provide length, quantities, and/or area of impact

Digging a trench in stream bank and stream bed 36" by 5 ft deep.

Have you prepared a mitigation plan to compensate for the project's adverse impacts to non-wetland waterbodies?

• If yes, submit the mitigation plan in Attachments section of this application.

• If No, or Not applicable, explain below why a mitigation plan should not be required.

could use some help with this. Not sure what a mitigation plan would be. minimal duration and area to be impacted. use materials in area. will not be bringing in outside materials

Describe the source and nature of any fill material, amount (in cubic yards) you will use, and how and where it will be placed into the waterbody.

fill will be material removed from trench and replaced, no materials from other sources will be used, if necessary may use material for trench to dam north end of stream for minimal amount of time to lay conduit.

For all excavating or dredging activities, describe the method for excavating or dredging, type and amount of material you will remove, and where the material will be disposed

Excavator trench remove 40 yard of soil and replace when conduit is installed.

ATTACHMENTS (APP ID: 24759)

- 1) To include your attachment(s), select "Online" option, click on the "Upload" button and follow the instructions to upload. "Upload" button can be clicked multiple times to attach multiple files under each category.
- 2) Select "Mail" option and mail your attachment(s) to address provided thereafter.
- 3) Select "Other" option if you cannot submit the document for extraneous reason and provide a reason thereafter.
- 4) Maximum attachment size is 15MB.

Note: if you are applying for a modification request for an existing application submission in this system (APPS), you may have already submitted necessary documents. To verify if you have, please select the "Online" option.

Once you have verified all attachments, proceed to Validation step of this application via "Next" button.

If you are an authorized agent applying for an applicant, you are required to submit an attachment to document the applicant's consent. To download a blank copy of the [Consent from Authorized Agent] attachment, click here.

If you are not the property owner of HPA project location(s) listed in this application, you are required to submit an attachment to document consent of property owner. To download a blank copy of the [Consent from Property Owner] attachment, **click here**. If there are multiple property owners of HPA project location(s) listed in this application, you are required to submit an attachment to document property owner's consent for each additional property owner. To download a blank copy of the [Multiple Owner] attachment, **click here**.

Please do NOT submit reports or data which identify or evaluate the potential of occurrence of archaeological or historic sites with your application.

Note: Please be aware that some users with older versions of Microsoft Office may receive a pop-up warning about SSL libraries. This is a result of APPS using more up to date security than older versions of MS. This pop-up may appear behind opened programs. Closing the pop-up by clicking 'OK' will allow the document to open.
