Kelly,

Thank you for this. Yes, we need to setup a meeting (I think I saw DNR was requesting as well). If the hydraulics are ok, they could be extended but if they are undersized, the entire culvert may need to be upsized. A site visit would help to determine that. If they could setup a meeting as soon as the snow comes off that would help to move this along.

Subject: SE-22-00002 Cape - Comments Response

External Email

Good afternoon Scott,

The applicant for SEPA application SE-22-00002 Cape provided the following response to WDFW comments:

Washington Department of Fish & Wildlife

No change in size, grade, alignment, or material are proposed for any culvert. Culverts will

be

extended as needed per WSDOT Hydraulics Manual Section 3-3.1.6 and we understand WDFW would like to examine the culverts. We will ensure that occurs.

I'm unsure if they provided this information directly to you, as requested in your comments.

Thank you,

Kelly Bacon
