Hello Chace,

This consult is in reference to SE-23-00032 Crow's Nest. This undertaking involves ground disturbance activities including the construction of a fire lookout tower above the treeline with a 400 sqft footprint, an access road which would involve grading and leveling and other associated infrastructure.

This undertaking is located within the CCT Usual and Accustom Territories. We request any undertakings, particularly those involving ground disturbing activities, to have an IDP in place prior to implementation.

The proposed project lies within the usual and accustom territory of the Wenatchi, 1 of the 12 constituent tribes of the Confederated Tribes of the Colville Reservation (CTCR), which is governed by the Colville Business Council (CBC). The CBC has delegated to the Tribal Historic Preservation Officer (THPO) the responsibility of representing the CTCR with regard to cultural resources management issues throughout the traditional territories of all of the constituent tribes under Resolution 1996-29. This area includes parts of eastern Washington, northeastern Oregon, the Palus territory in Idaho, and south-central British Columbia.

If ground disturbing activities are to be conducted, such as but not limited to the installation of a septic system or the scraping of a driveway, a cultural resource surface survey and sub-surface testing of the area in and directly around the proposed ground disturbance are recommended as a surface observation will not be an accurate assessment of the existent potential for sub-surface cultural deposits. These Shovel Test Probes should at least be to the terminal depth of the proposed ground disturbance to ensure the totality of the presence or absence of cultural material.

There are known cultural resources of precontact and historic significance nearby and this particular parcel is considered to be Very High Risk for an inadvertent discovery according to the DAHP predictive model. This area has not been previously surveyed and a preliminary archaeological investigation would be prudent.

CCT requests a cultural resource survey prior to the implementation of ground disturbing activities and that during implementation that there be an inadvertent discovery plan or (IDP) in place to ensure compliance with all Section 106 and relevant cultural resource laws both federally and to the state of Washington.

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program.

On behalf of Guy Moura, Tribal Historic Preservation Officer.

Sincerely,

Connor Armi | [Archaeologist Senior MA, RPA](#)

Good morning,

CDS is requesting comments on the following SEPA application: **SE-23-00032 Crow's Nest**. Links to the file materials can be found below. Kittitas County anticipates issuing a DNS for this project application and is using the optional SEPA process. This may be the only opportunity to comment on the environmental impacts of this project.

The comment period will end **January 19, 2024, at 5pm**. CDS will assume your agency does not wish to provide comment if not received by this date. Please contact me directly with any questions or issues accessing the materials.
