---

Ok, no problem. Thanks for the info. I will proceed processing your application without one. Since there is no hazardous slope noted on our mapping software, and no geotechnical report, I might have to come out and do a site visit, which is no problem.

Thanks and I'll be in touch. Have a great weekend.

Good morning, Rachael.

Received your voicemail. The 50 degree slope was my best guess while walking up and down from the road down to my property after many months. It seemed to be a bit steeper than a 45 degree slope. No geo report completed. Thank you for your help! It's very much appreciated.

Regards,  
Eric
