Subject: Re: VA-23-00007 Chappelle - Notice of Application
Date: Tuesday, September 26, 2023 1:12:15 PM

CAUTION: This email originated from outside the Kittitas County network. Do not click links, open attachments, fulfill requests, or follow guidance unless you recognize the sender and have verified the content is safe.

This consult is in reference to Setback Variance VA-23-00007 *Chappelle*. There are no ground disturbing activities planned within this variance but there are clearly plans for future development or expansion of a residential footprint.

This undertaking is located within the CCT Traditional Territories. We request any undertakings, particularly those involving ground disturbing activities, to have an IDP in place prior to implementation.

The proposed project lies within the traditional territory of the Wenatchi Tribe, 1 of the 12 constituent tribes of the Confederated Tribes of the Colville Reservation (CTCR), which is governed by the Colville Business Council (CBC). The CBC has delegated to the Tribal Historic Preservation Officer (THPO) the responsibility of representing the CTCR with regard to cultural resources management issues throughout the traditional territories of all of the constituent tribes under Resolution 1996-29. This area includes parts of eastern Washington, northeastern Oregon, the Palus territory in Idaho, and south-central British Columbia.

If ground disturbing activities are to be conducted, such as but not limited to, the installation of a septic system or the scraping of a driveway, a cultural resource surface survey and sub-surface testing of the area in and directly around the proposed ground disturbance are recommended as a surface observation will not be an accurate assessment of the existent potential for subsurface cultural deposits. This test should be to the terminal depth of the septic installation to ensure the totality of the presence or absence of cultural material.

There are known cultural resources of historic significance nearby and this particular plat is considered Very High Risk for an inadvertent discovery according to the DAHP predictive model. This parcel and section has not been previously surveyed and a preliminary archaeological investigation would be prudent.

CCT requests a cultural resource survey prior to the implementation of ground disturbing activities and that during implementation that there be an inadvertent discovery plan or (IDP) in place to ensure compliance with all Section 106 and relevant cultural resource laws both federally and to the state of Washington.

Thank you for consulting with the Colville Confederated Tribes History and Archaeology Program.

On behalf of Guy Moura, Tribal Historic Preservation Officer.

Sincerely,

Connor Armi | Archaeologist Senior MA, RPA
