ANTIQUE WOODSTOVE POLICY

Antique (pre-1940 per IRC R303.8.3 WSA & WAC 51-50-1204.2.3) woodstoves are occasionally identified for installation in new and/or existing residential structures. These stoves are usually refurbished stoves that are located next to the kitchen and are intended for decorative purposes or for backup cooking surfaces in a power outage. An antique woodstove will be allowed to be installed under the following circumstances:

- An antique woodstove can not be the primary heat source.
- An antique woodstove must be installed per all relevant sections of the mechanical codes, fire codes and building codes.
- An antique woodstove can not be used during a burn ban.
