Prater Road looking northeast

Prater Road Safety Improvements

Location:
This project is located southeast of Ellensburg, on Prater Road, just south of I-90.

Project Description:
Guardrail will be installed along the west side of Prater Road from mile post 0.38 to mile post 0.67. This segment of road has a steep embankment on the west side.

Funding:
This project is fully funded by the Rural Road Safety Program, a federal safety grant program.

Schedule:
This project is included in the Run-Of Road Safety Improvements. Bids were opened on September 6, 2013 with the low bid submitted by Belsaas & Smith of Ellensburg. The project is complete.

Road History:
The earliest establishment date for Prater Road in the Public Works’ records is 1929, although it shows up on a 1916 map of the county. The road originally went by the name of #39 Road. A portion of the road also may have been called “Mundy Road” according to the records.
