No. 6 Road at MP 0.630 showing road narrowing at bridge

No. 6 Road

Location:
No. 6 Road is southeast of Ellensburg and is a regional north-south connector, providing access to logging, recreation, ranching areas, farming, SR 821 and I-82 and growing residential areas. This bridge was built in 1955, and rebuilt in 1963.

Project Description:
This project proposes to replace the irrigation structure on No. 6 Road over the Town Ditch. The structure is 23.7’ wide from curb to curb and 18’ in length. The road shoulder narrows at the bridge from about 2 feet to 0.3 feet on the bridge deck.

This project will replace the irrigation structure with a larger structure that is 30’ to 35’ in length.

Updated 2/28/2014
Funding:
Rural Arterial Program funds and Kittitas County road funds.

Schedule:
Design is scheduled to begin in 2014.

Road History:
In 1881 a new road was opened from just south of (now) Tjossem Road to Wilson Creek. A portion of this road was later called the E.B. Wasson Road. The road connected with the Kiester Forest Road which is now part of Wilson Creek Road.
