

# Kittitas County Solid Waste

## Agenda Staff Report

**AGENDA DATE:**

5/5/2015

**ACTION REQUESTED:**

Request Boards signature on the Renewal of a Professional service agreement with HWA GeoSciences Inc. for the ground water and gas monitoring at Ryegrass.

**BACKGROUND:**

Kittitas County Solid Waste currently operates a Limited purpose landfill and monitors the Closed Balefill at the Ryegrass Facility. WAC 173.350 requires that ground water monitoring be done quarterly on both the Limited Purpose landfill and the closed Balefill. In addition gas monitoring is required to be done annually for the closed Balefill.

HWA has established background levels and maintains annual compliance data on the facility and imports all necessary information into the Environmental Information Manamagement database system for the Department of Ecology.

This is a renewal of the agreement with HWA for another year of testing and reporting for the facilities.

**INTERACTION:****RECOMMENDATION:**

Recommend the Board of County Commissioners sign the Renewal of the Professional services agreement with HWA GeoSciences Inc.

**HANDLING:**

Return two copies.

**LEAD STAFF:**
