Agenda Staff Report

AGENDA DATE:

7/21/2015

ACTION REQUESTED:

Approve Order Denying Allwest's Appeal

BACKGROUND:

Allwest appealed the Fire Marshal's determination that sprinklers were required on buildings in the Allwest Cluster Plat. The BOCC agreed. The BOCC unanimously voted to affirm the Fire Marshal. Commissioner Jewell and Commissioner Berndt, in their remarks, believed the matter was appealable. Commissioners O'Brien and Berndt, in their remarks, believed the appeal, although in the guise of an administrative appeal, was actually an attempt to challenge a plat condition despite LUPA's appeal period having run or to amend the plat despite this not being the correct process under Ch. 58.17 RCW.
